DANCE BEYOND THE SHADOW

HYDECLIP EPK

BIOGRAPHY

HydeClip is an electronic music producer, DJ and vocalist whose sound blends hypnotic grooves, analog synths, organic textures and world influences into immersive journeys designed for the dancefloor.

Inspired by Jungian Shadow Theory, his music explores the intersection between introspection and collective movement—inviting listeners to go deeper, feel more, and connect.

His own voice appears throughout his sets and productions as modern mantras, processed into ethereal forms that guide the listener through the experience.
